### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Replace "presently allowed" (p. 1, line 9 of the spec.) with -- **now U.S. Patent No. 6,611,860** --.

### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record does not specifically disclose or remotely suggest

With regard to independent claim 1:

a plurality of supervisory nodes communicatively coupled to said supervisory communication bus, said supervisory nodes including a plurality of supervisory monitoring nodes each configured to monitor at least one of the lower-tiered data buses of said hierarchical control network, and at least one supervisory reporting node communicatively coupled to said first-tier data bus, whereby one or more control network nodes coupled to said first-tier data bus are **apprised of events** occurring on the lower-tier data buses.

With regard to independent claim 52:

monitoring communications over said data buses using supervisory nodes;  
communicating among said supervisory nodes over said supervisory  
communication bus according to a **master-slave protocol**; and  
alerting one or more control network nodes coupled to said first-tier data bus of  
events occurring on the lower-tier data buses, **via the supervisory nodes** coupled to  
said supervisory bus.

With regard to independent claim 64:

a supervisory bus physically **distinct** from said network data buses; and  
a plurality of supervisory nodes connected to said supervisory bus and to said  
control network data buses, said plurality of supervisory nodes configured to monitor  
said control network data buses and to **alert one or more control network nodes**  
coupled to said first-tier data bus of events occurring on the lower-tier data buses.

With regard to independent claim 72:

a plurality of supervisory monitoring nodes connected to said supervisory bus  
and to said lower-tier buses, **each of said supervisory monitoring nodes configured  
to monitor one of said lower-tier buses**; and

at least one supervisory reporting node communicatively coupled to said first-tier  
control network data bus and to said supervisory bus, whereby one or more control  
network nodes coupled to said first-tier control network data bus are **apprised of**

**events occurring on the lower-tier data buses** via communications over said supervisory bus.

With regard to independent claim 75:

a first-tier master node connected to said first common bus, said first-tier master node comprising an uplink transceiver connected to said second common bus and a downlink transceiver connected to said first common bus, wherein said uplink transceiver of said first-tier master node is configured to function as a second-tier slave node on said second common bus, thereby allowing said first-tier master node to monitor communications on said second common bus.

In addition, Examiner points to the arguments of Applicant's representative (remarks on 2/11/08; labeled pp. 16 – 25).

2. These limitations, in conjunction with the other limitations in the independent claims, are not specifically disclosed or remotely suggested in the prior art of record.

A review of claims 1 and 40 – 83, in view of the Examiner's arguments above, indicates that claims 1 and 40 – 83 are allowable over the prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth R. Coulter whose telephone number is 571 272-3879. The examiner can normally be reached on M - F, 7:30 am - 4 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rupal Dharia can be reached on 571 272-3880. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
